Facilitator Guide

Last Search Standing · one 50-minute class

Before class

1. Print one card set per team, double-sided. Cut it into three decks: Practice, Angle, Mod.

2. Pack one envelope per team: 1 Practice card, the shuffled Angle deck, the shuffled Mod deck, 1 Team Log, 1 How to Play sheet.

3. Print one Primo guide per student.

4. Plan teams of 3 or 4.

5. Test one hard search in Primo, such as **origami AND tourism AND disability** with Peer-reviewed Journals on. If it hits 0, replace the narrowest Angle cards with broader words.

6. Open Primo on the projector. Draw a scoreboard on the board: one column per team, one row per round.

7. Set a 4-minute timer you can restart.

Schedule

0:00–0:05	Form teams. Hand out envelopes. Assign jobs.
0:05–0:12	Demo round on the projector.
0:12–0:16	Round 1: Practice word only.
0:16–0:36	Rounds 2–6, 4 minutes each.
0:36–0:40	Name the winner. Teams write their Best Find nominee.
0:40–0:50	Best Find vote. Debrief. Bridge to their own topics.

Short on time? Stop after round 4.

Assign jobs

Every team member has one job. Jobs stay the same all game. In a team of 3, the Dealer is also the Checker.

Driver

Types the search in Primo. Only the Driver touches the keyboard.

Logger

Fills in the Team Log. Calls out the Result # at Counts.

Dealer

Draws cards. Holds the Mod hand. Announces Mods.

Checker

Opens a result and decides if the title is usable.

Demo round: 7 minutes, on the projector

Play one team's first three rounds in front of the class. Use **bonsai**. Fill in a Team Log on the document camera as you go.

1. Type **bonsai** in the first row of Advanced Search. Point to the result count at the top of the results list. Say: "This number is your Result #. Write it down every round."
2. Flip an Angle card. Change the search to **bonsai AND history**. Point to the new count. Say: "Every Angle card makes the pile smaller."
3. Play a Peer Reviewed Mod on yourself. Click Peer-reviewed Journals in the filter panel, then click the lock icon. Say: "Filters from Mod cards stay on all game. Lock them."
4. Open one result. Read the title, abstract, and subjects out loud. Ask the class: "Is this usable?" Then give the rule: **a title is usable if you can say in one sentence how it connects to your Practice word and at least one Angle word.**
5. Write the string, the Result #, and the title in row 1 of the log. Write the filter in brackets: **bonsai AND history [peer reviewed]**.
6. Show the four calls on page 2: Draw, Mods, Search, Counts. Then start round 1.

Running the Rounds

Call every round the same way

All teams move together. Say each call, wait for the time listed, then say the next one. Round 1 skips Draw.

1 · "Draw."

30 seconds

Dealer flips the top Angle card. Driver adds it with AND.

2 · "Mods."

30 seconds

Dealer may play one Mod card. Attacks are said out loud and the card is walked to the rival.

3 · "Search."

2 minutes

Driver runs it. Checker opens a result. Logger writes string, Result #, title.

4 · "Counts."

1 minute

Each Logger calls out the Result #. You write it on the scoreboard. 0 or no usable title: out.

After Counts, each Dealer draws a Mod card so the team holds 3 again.

Teams that are out

First time out: the team fills in the resurrection box during the next round. If the new search gets results and a usable title, they rejoin at the next "Draw."

Second time out: the team becomes judges. During Counts, judges check other teams' titles and can challenge one per round.

Ending the game

The game ends after round 6, or when one team is left. The team still standing wins. If several teams are still standing, they all win, and the Best Find vote breaks the tie.

Mod card rulings

Hand: each team holds 3 Mod cards and plays at most one per round, only during "Mods."

Filters: Peer Reviewed, Last 5 Years, Books Only, Articles Only, and Full Text stay on all game. The Logger writes them in brackets after the string.

Conflicts: Books Only and Articles Only cancel each other. The newer card wins.

Shield and Bounce: played the moment a Mod hits, even outside "Mods."

Pile-ons: two Mods can hit one team in a round. Both apply.

Off limits: no Mods on teams that are out. No Mod can remove a team's Practice word.

NOT: the attacking team picks the word.

Primo trouble spots

0 results that should not be 0	Check for lowercase and, or, not. Check for a filter left on from an earlier search.
Filters vanished	Filters reset with each new search. Reapply them and click the lock icon.
Search split across rows	Advanced Search has several rows. Put the whole string in the first row.
Team forgot to type AND	No problem. Primo treats a space between words as AND.
Count jumped way up	Expand My Results is checked. Uncheck it.

Debrief: 10 minutes

Ask each question. Take two or three answers. Point to the scoreboard.

1. Which word killed a search? Why that word and not another?

2. Which filter cut the most? Were the results that were left better or worse?

3. Read the Best Find titles out loud. What do they have in common?

4. Bridge: each student writes their own creative practice and two angles on a blank card, then runs that search before leaving.

How to Play

Last Search Standing. Keep your search alive: 0 results or no usable title puts your team out.

Set up

Practice card: flip it face up. This word stays in your search all game.

Angle deck: face down in the middle of your table.

Mod deck: face down. The Dealer draws 3 Mod cards into the team's hand.

Primo: the Driver opens it, signs in, and leaves Expand My Results unchecked.

Jobs

Driver: types the search. Only the Driver touches the keyboard.

Logger: fills in the Team Log. Calls out your Result #.

Dealer: draws cards, holds the Mod hand, announces Mods.

Checker: opens a result and decides if the title is usable.

Every round: your instructor calls four steps

Round 1 skips Draw: search your Practice word alone.

1 · Draw

Dealer flips the top Angle card. Driver adds it to the search with AND.

2 · Mods

Play one Mod card, or pass.

3 · Search

Driver runs the search. Checker opens a result. Logger writes the string, Result #, and title.

4 · Counts

Logger calls out your Result #. Dealer draws a Mod card so you hold 3 again.

Usable title: you can say in one sentence how it connects to your Practice word and at least one Angle word.

Playing Mod cards

On yourself: change your own search as the card says.

On a rival: say the team and the card out loud ("Table 3, Peer Reviewed"). Walk the card to their table.

Filters stay on all game. Click the lock icon in Primo. Write filters in brackets after your string: bonsai AND history [peer reviewed].

Shield and Bounce: play these the moment a Mod hits you.

Never: no Mods on teams that are out. No Mod removes a Practice word.

Knocked out

First time: fill in the resurrection box on your Team Log. Find the word that killed your search. Fix it with OR, a synonym, or a broader word. If you get results and a usable title, you rejoin at the next Draw.

Second time: your team becomes judges. During Counts, check other teams' titles. You may challenge one title per round.

Sample game Made-up numbers. Yours will differ.

ROUND	SEARCH STRING	RESULT #	WHAT HAPPENED
1	`bonsai`	1,240	Practice word alone
2	`bonsai AND history`	212	Drew history
3	`bonsai AND history AND economics [peer reviewed]`	9	Drew economics. Hit by a Mod.
4	`bonsai AND history AND economics AND children [peer reviewed]`	0	Drew children. Out.
Fix	`bonsai AND history AND economics AND (children OR family) [peer reviewed]`	4	Broadened with OR. Back in.

MOD M1

OR

PLAY ON YOURSELF

Add a synonym to any word with OR, in parentheses: (zines OR fanzines).

MOD M2

OR

PLAY ON YOURSELF

Add a synonym to any word with OR, in parentheses: (bonsai OR "miniature trees").

MOD M3

Quotation Marks

PLAY ON A RIVAL

Pick two neighboring words in a rival's search. They go in quotes as one exact phrase.

MOD M4

Peer Reviewed

PLAY ON A RIVAL

Rival turns on the peer-reviewed filter and leaves it on for the rest of the game.

MOD M5

Peer Reviewed

PLAY ON A RIVAL

Rival turns on the peer-reviewed filter and leaves it on for the rest of the game.

MOD M6

Last 5 Years

PLAY ON A RIVAL

Rival sets the date range to the last five years and keeps it for the rest of the game.

MOD M7

Books Only

PLAY ON A RIVAL

Rival limits results to books and ebooks.

MOD M8

Truncation

PLAY ON YOURSELF

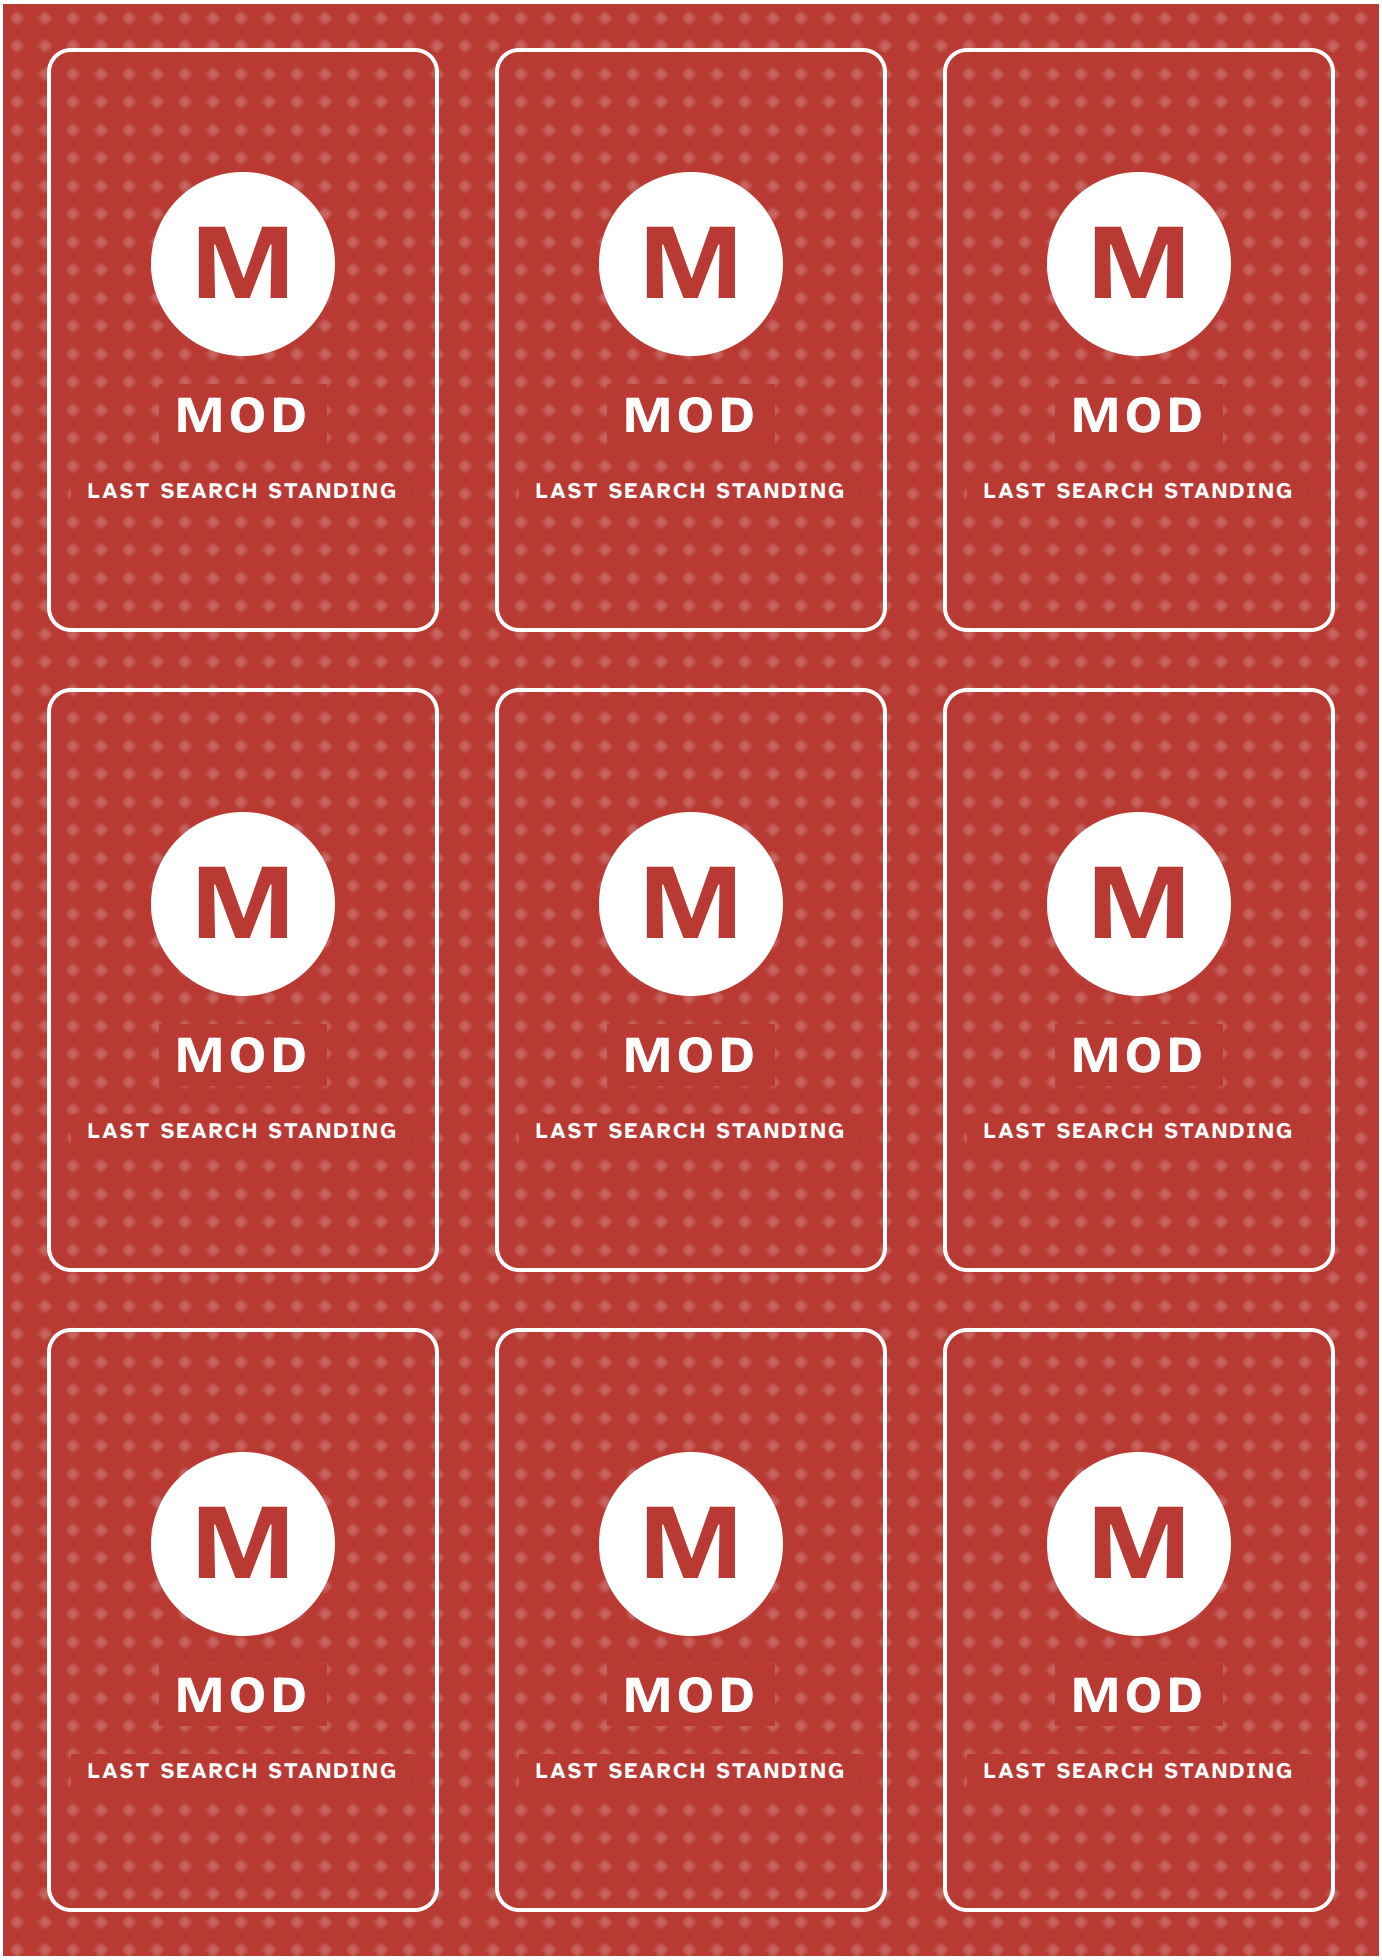

Cut one word to its root and add *. knit* finds knitting, knitters, and knits.

MOD M9

Synonym Swap

PLAY ON YOURSELF

Replace one word in your search with a synonym.

MOD M10

Subject Terms

PLAY ON YOURSELF

Open any result, find its subject terms, and swap one in for a word you chose.

MOD M11

NOT

PLAY ON A RIVAL

Choose any word. Your rival must exclude it from their search with NOT.

MOD M12

Double Down

PLAY ON A RIVAL

Rival draws a second Angle card this round and ANDs that one on too.

MOD M13

Articles Only

PLAY ON A RIVAL

Rival limits results to journal articles.

MOD M14

Full Text

PLAY ON A RIVAL

Rival limits results to full text available online.

MOD M15

Shield

PLAY ON YOURSELF

Hold this card. Cancel one Mod played on you, whenever it lands.

MOD M16

Bounce

PLAY ON YOURSELF

Hold this card. Send one Mod played on you back to the team that played it.

MOD M17

Steal

PLAY ON A RIVAL

Trade your newest Angle card for a rival's newest. Both searches change. Both teams log it.

MOD M18

Scavenger

PLAY ON YOURSELF

Skip this round's draw. Look at the top three Angle cards, keep one, and put the other two on the bottom.
